SUMMARY

prolegal reports in detail on the knife attack of 22 January 2026 at the Venetian during the SHOT Show and on my response. The article describes how I gave immediate first aid to a severely injured man and treated him together with other helpers until emergency services arrived. A prior publisher announcement points to this report.

This PDF is Michael Paa's own summary. It is not the publisher's original article and not a complete translation of the piece.
